ASU'S APPEAL

It is with profound grief and deep sorrow that Association of Southern Urologists (ASU) addresses the shocking news of the brutal murder of an on-duty lady doctor at R G Kar Medical College and Hospital, Kolkata. This tragic and horrifying event has left us all devastated and in a state of deep mourning.

The Association of Southern Urologists, India, is deeply saddened by this act of violence against a dedicated doctor. A doctor, who was also a daughter, a sister, and a friend, has been taken from us in the most unjust and tragic way. Our hearts go out to her family, friends, and colleagues during this incredibly difficult time.

ASU stands united in requesting that the authorities conduct a thorough and impartial investigation into this case. It is imperative that the culprits responsible for this barbaric act be identified, apprehended, and brought to justice without delay. This incident not only represents a grave injustice to the victim and her family but also poses a serious threat to the safety of all doctors who dedicate their lives to serving others.

In light of this tragedy, ASU urges the government and relevant authorities to take immediate and concrete steps to improve the safety and security of doctors, with a particular focus on the protection of women in medical colleges, hospitals, and other healthcare institutions. This includes the implementation of stringent safety measures such as increased security personnel, better surveillance systems, and emergency response protocols tailored to the unique needs of women healthcare professionals. It is crucial that these measures be put in place to ensure that such a tragedy never happens again.

In these moments of profound loss, ASU joins in grief with the family of the deceased and the medical community at large. ASU will continue to advocate for justice and the safety of all doctors.

Let justice be served, and let us work together to prevent such incidents from ever occurring again.
