President's Message

Dear Members

Welcome to Bengaluru. We will be having a physical conference after gap of 2 years. This will be a memorable conference. ASU has undergone a reformation. It is now a society which is looking at the welfare of the members. A slew of initiatives have been started and will soon see the light of the day. I urge all the members to register for the conference in numbers. This is an opportunity to discuss our problems and possible solutions. I request you all to attend to GBM without fail. This is the opportunity to air and solve and resolve to have a better practice patterns. I again request you all to come in numbers attend the GBM without fail.

Regards

N Mallikarjuna Reddy

ASSOCIATION OF SOUTHERN UROLOGISTS

Secretary's Message

Dear Members,

Greetings. I feel so happy to address you as the Secretary of ASU for one last time. It has been a privilege to serve you and the Association. I am thankful to my President's Dr.M Ganesh Kamath and Dr.N Mallikarjuna Reddy for not only guiding me, but also giving me the freedom to carry out the scientific activities of the Association. I thank my council for their support. Every time a new team takes over it tries to improve the existing system and also add a few to the system. We as a team have brought in a zoom platform of our own for council and official interactions. We have started an exclusive You tube for ASU. We are in the process of making an exclusive Mobile App for ASU which will be useful to both the members as well as general public. The Website member list is fully updated. We only request you update your details in the update form available in the website if you need anything to add. The ASU handbook is also fully updated and about to be added to the website. We have started more ASU WhatsApp groups to provide information to our members and stay interactive. We are also updating the new email addresses of members to our email delivery list.

As we know the 33rd annual conference of the ASU is going to be held in M S Ramiah medical college, Bengaluru between 8-10th of July 2022. We have devised an excellent scientific programme for the Annual conference. We have taken into consideration that with the newer developments in technology and learning a lot of youngsters are coming up great in our field and it's our duty to encourage and bring the best out of them, not forgetting that experience always counts and the guidance of seniors is very important in understanding the case scenario and trouble shooting. We have taken a fine mix of seniors and youngsters in the forthcoming conference to provide good scientific material. It's been a long wait for us to have a physical conference. All said and done we are set to meet physically in Bengaluru. I am sure it would be a great scientific get together and a memorable experience.

Regards

G. Chengalvarayan

Obituary

Dr. Joseph Antony

One of our Senior members Dr Joseph Antony left for heavenly abode on 2/6/2022. He was one of the founder members of Bangalore Urological society. After his graduation from Stanley Medical college he obtained his post graduation in Gen Surgery in USA and later obtained FRCS. He worked at St Martha's Hospital and later moved on to St Johns Medical college where he established the Department of Urology in 1983. After his retirement he was practicing at St Philomenas hospital. He was one of the members responsible for growth of Urology along with senior members like Prof H S Bhat and Dr T S Jairam. He has mentored many urologists who are stalwarts in Urology today. He was a passionate academician and was also amateur weightlifter in his college days. It is a great loss to all of us. Our heartfelt condolences
