## President's MESSAGE

Dear colleagues,

Greetings from ASU office!

Last 12 months have been hectic with several meetings and workshops. It shows our commitment and enthusiasm for both instruction and learning. I congratulate all involved in such activities. The Association of Southern Urologists has been registering overall growth day by day, thanks to the efforts of our dynamic secretary Dr. Laxman Prabhu and other office bearers. As you all know, during the past 12 months, the

association has put in lots of efforts at training the younger generation of urologists through several programs. I thank all the council members who have contributed to conduct of theme based programs in their respective states. The attendance at these meetings amply testifies the interest and zeal amongst the younger generation in learning the newer concepts and technology. I hope this trend will continue in future too.

The annual conference of the association is fast approaching. The organizing committee is making all efforts to make it a memorable one. The venue being a picturesque hill station, I expect a large number of delegates with their families here. I am quite confident of the local organizers meeting their expectations. The initial scare of the viral epidemic in Kerala has died down. Thanks to the efforts of the local authorities, it has been contained successfully. Our secretary has charted out an interesting program for this meeting. Many newer concepts are being introduced. I invite all of you to attend this meeting and enjoy the place and benefit from the program.

I look forward to meeting you at Wyanad soon,

Let us stay ahead always,  
Warmest personal greetings once again,

Dr. Mallikarjuna C.  
President  
Association of Southern Urologists
